

To map of geological map of the study area, the following information is provided:

1. The map is a geological map of the study area, showing the distribution of geological units.

2. The map is based on field observations and geological data.

3. The map is a scale of 1:50,000.

4. The map is a geological map of the study area, showing the distribution of geological units.

Geological Unit	Symbol	Description
